Professional Summary

As a student at the Open University of Sri Lanka, I am seeking a software engineering internship. With proficiency in front-end web/mobile development, I offer a unique combination of creativity and technical expertise. I'm eager to contribute to innovative projects and apply my skills in a real-world setting, while continuously learning and growing as a developer.

Skills

- ASP.NET Core
- C#
- HTML5
- CSS3
- Tailwind CSS
- JavaScript
- Flutter
- MySQL
- Microsoft SQL Server

Education

Bachelor of Software Engineering Honors – The Open University of Sri Lanka
2021 December – Present

Kokuvil Hindu College – Jaffna
G.C.E Advanced Level, Physical Science

2016–2018

Experience

Intern Software Engineer January 2024 – September 2024

Oyslans Software Solutions Pvt Ltd, Jaffna, Sri Lanka

- I worked for this company for 6 months and completed part of two projects using C# with ASP.NET Core, the WPF framework, and SQL Server.
- I worked on a Restaurant Management project involving web development using ASP.NET Core and MS SQL Server. I was responsible for part of the admin side and the kitchen order-taking page.
- I worked on a POS system project using WPF and C# with Clean Architecture, where I handled the PDF static generation part.

Projects

CAKESGALORE Website (HTML, CSS, JavaScript)

MedStar HMS (WPF Application using C#, MSSQL)

FlavorFusion Pies Website (React.js)

Trash to Cash App (Android – Java, SQLite)

Language

English (Intermediate)

Tamil (Proficient)
